2006/2007

September 2006

“New Dimensions in Flower Design” with Kenn Stevens from Arnold Arboretum.

A renowned arranger and designer with worldwide experience. He combines design and theater experience with horticulture in a unique way, drawing from experience in teaching Japan and Korea to the Arnold Arboretum. He works with a flair that coming design accuracy with creativity for education and enjoyment.

October 2006

“Planting Bulbs for Overwinter Bloom” by Holly Macy Bulbs for Winter, and Spring garden blooms

Learn the secrets of planting bulbs for over-winter bloom and spring bloom in the garden with our own Holl Macy. She has worked as a floral designer for 12 years and has her own floral landscape design company-Boughs of Holly (to see some of her work got to www.boughsofholly.com). The main focus of her work is weddings and special occasions. She also does garden designs and installations. In addition to fresh flowers, see her silk wreaths and arrangements at The Black Swan. Whether working with plants or flowers, she enjoys using different textures, forms and colors to create a unique style. After the meeting, join Holly and Janice Allen to plant outdoor bulbs and hosta the Peterborough Library.

April 2007

“The Temple to Crotched Corridor and Other New Conservation Opportunities” with Richard Ober

Richard Ober is the executive director of the Monadnock conservancy, the conservation land trust that serves southwestern New Hampshire. From April 1985 to June 2001 he has a senior staff member of the Society fo the Protection of New Hampshire Forests, and editor of the journal Forest Notes.

The Corridor is one of three “landscape scale” projects of the Monadnock Conservancy. Anchored in the south by Temple Mountain, hopefully soon to be a state park, and reaching through privately owned parcels to the land of the Crotched Mountain Foundation in the north. This corridor will provide a greenbelt of protected land as a gateway to the Monadnock Region.

Edible Landscapes: For Health, Habitat, Families & the Future

John Forti

Location: Monadnock Center, Bass Hall, 19 Grove Street, Peterborough, NH

Program

John Forti is a nationally recognized lecturer, garden historian, ethnobotanist and garden writer. John will present an illustrated lecture to help us explore how to eat locally and enjoy the fruits of our own labors. His talk delves into planting edible gardens and landscapes that offer healthy alternatives to our lawns and hedges. Whether learning to explore our own back yards or the newest landscape style of the 21st century, this talk offers meaningful ways to engage ourselves, our kids and our community in cultivating a sense of place from seed to table.

Monday, October 16, 2017

Bringing Home the Forest

Dan Jaffe

Special Location: Harris Center, 83 King's Highway, Hancock, NH

Program

Dan Jaffe of the New England Wildflower Society and Garden in the Woods in Framingham, MA will talk with us about the essential role native plants play in ecosystems and show how our beautiful native plants can be included in our home landscapes.

Monday, November 13, 2017

Vonnie and Wendy Make Colonial Williamsburg Style Wreaths!

Location: Shieling Forest, Old Street Road, Peterborough

Program

Vonnie and Wendy will guide us through the custom of affixing fruits, vegetables, dried flowers, herbs, and other plant life to basic Christmas forms like wreaths and swags. This tradition traces its roots to the early years of the twentieth century, a time when Christmas was growing in significance and the Colonial Revival was pulling decorative impulses back toward the eighteenth century

Monday, March 12, 2018
Automatic Plant Watering System, Organic Lawn Care and Varmint Control
Richard Kahn

Location: Monadnock Center, Bass Hall, 19 Grove Street, Peterborough, NH

Program

Richard Kahn, organic landscaper and lawn care specialist, will demonstrate how we can build our own automatic plant watering system for next to nothing from largely repurposed materials. **PLEASE BRING ALONG A CLEAN, EMPTY PLASTIC CONTAINER SUCH AS A 1 OR 2 LITER SODA BOTTLE** and take home a useful tool! A translucent container, so that you can see the water level is preferable, and the cap should be no smaller than a standard soda bottle cap.

Richard will also discuss organic lawn care and varmint control.

Monday, April 9, 2018
Everything you need to know to grow Dazzling Dahlias! by Emily Cleaveland

Location: Shieling Forest, Old Street Road, Peterborough

Program

Emily Cleaveland has been growing and selling dahlia flowers and tubers in Vermont and New Hampshire for 19 years. Emily hails from a background in science, and often employs an experimental approach to her garden beds. She has been touted by several magazines as "The Dahlia Lady" of Springfield, NH, being cited for her big colorful blooms and robust tubers. We are pleased to let you know that Emily will be bringing tubers for our club members to purchase at this meeting!

Monday, May 14, 2018
Grow It, Cut It, Arrange It! by Cheryl Monroe

Location: Shieling Forest, Old Street Road, Peterborough

Program

Our friend Cheryl returns to us to show us how to have blooms fresh from our own gardens to adorn our houses and tables, even if we don't have a separate cutting garden. This program will give us plant selections that can easily work in existing garden space that will provide bouquet after beautiful bouquet. She will also provide suggestions for foliage, fruit and other fun additions to make arrangements POP!

PGC Programs 2018 - 2019

A Garden for Wildlife

By Steve Roberge

September 10, 2018 at Shieling Forest Learning Center, Peterborough, NH

Steve Roberge with the New Hampshire Extension will join us to discuss how anyone with a backyard, garden or landscaped area can help wildlife by altering their landscaping and gardening practices. Steve's discussion will include wildlife and habitats, plant choice, use of native plants, nest boxes and feeders, and issues concerning invasive plants.

Bulbs and Humans: Rising Above the Squirrel Mentality

By David Burdick

October 15, 2018 at The Harris Center, Hancock, NH

Grower/enthusiast David Burdick of Daffodils and More in Dalton, MA will discuss the horticulture of spring flowering bulbs, and the ways and whys of selecting, purchasing, planting and designing with them. David will help simplify the dilemma of how to plan and save areas where bulbs should be planted at appropriate time to assure success both culturally and from a design aspect. Most importantly, David will help us learn how to avoid falling victim to the squirrel mentality!

Terrariums: Indoor Gardening All Year Long

By Kathy Forrest of Bowerbirds and Friends

November 12, 2018 at Shieling Forest Learning Center, Peterborough, NH

As the days grow shorter and the snow begins to cover the ground we look for ways to brighten our homes and bring a bit of nature indoors. Kathy Forrest of Peterborough's Bowerbird and Friends will join us in a discussion and workshop on the art of creating a terrarium. Kathy will bring all the supplies you need to create your terrarium. Members and guest may purchase supplies from her or bring your own terrarium and purchase plant material. If you purchase supplies cost will range \$20 - \$40. Please note there is no workshop admission fee for members or guests.

Peonies of the Coos Riviera

By Marion Schafer

www.PeterboroughGardenClub.org

PO Box 651
Peterborough, NH 03458

March 11, 2019 at Bass Hall, The Monadnock Center, Peterborough, NH

Just above the Connecticut River in New Hampshire's Coos County, more than a hundred varieties of herbaceous peonies, tree peonies, and intersectional-hybrid peonies bloom from late May until late July. Marion Schafer, owner of Peonies of the Coos Riviera, will give a presentation that focuses on how to cultivate, plant and divide peonies and will include a Q & A session.

The Basics of Organic Gardening

By Henry Homeyer

April 8, 2019 at Bass Hall, The Monadnock Center, Peterborough, NH

Henry Homeyer, UNH Master Gardener and Vermont Public Radio commentator will join us to discuss how we can improve our soil, and deal with pests and diseases without using any chemicals. Henry will share photos of great flowers he grows and share his knowledge in growing our gardens successfully and organically!

What to Grow and How to Do It

By Dan Jaffe

May 13, 2019 at Shieling Forest Learning Center, Peterborough, NH

One of our favorite speakers, Dan Jaffe, of the New England Flower Society will join us to talk about plant propagation and the best plants to choose for propagation. If you are the frugal gardener or one who wants to get the most of out their plant choices, Dan will provide valuable information to assist you in getting the most out of your plants.

The Late Summer Garden

By Maude Odgers

September 9, 2019 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Maude will speak about plants and garden design for the Late Summer Garden. Maude is a garden designer who resides and gardens in Peterborough. Her beautiful gardens have been open to the public many times for the Garden Conservancy Monadnock Open Days, and have been featured in NH Home, and Better Homes and Gardens. Maude is also in charge of the lovely Peterborough Town gardens.

Big Trees of New Hampshire

By Kevin Martin

October 21, 2019 at Harris Center for Conservation Education, 83 Kings Hwy, Hancock, NH 03449

NH native, author and wooden boat builder Kevin Martin will bring us through the woods and into cities all over NH to find and measure the very largest living trees in our landscape. Some examples include the state's largest northern white cedars in Clarksville that have been marked by bears for generations and a horse chestnut in Portsmouth that was planted by a signer of the Declaration of Independence in 1776. New Hampshire has 11 national champion Big Trees.

NH native, Kevin Martin will share local and statewide hikes to locate New Hampshire's largest trees on public land and in cities. Martin includes tree history, management and current stewardship.

Kevin Martin will show and discuss the state's biggest trees as described in his book *Big Trees of New Hampshire*.

Flower Trends of 2019

By Barbara Jobin

November 11, 2019 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Barbara Jobin is an experienced flower designer and member of the Concord Garden Club. She runs workshops in Concord on flower design. Barbara will show a power point presentation and then demonstrate floral designs for the holidays. Her designs will be raffled off at the end of the presentation.

NH State Chestnut Restoration Project

By AJ Dupre

March 9, 2020 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

From the NH Division of Forest and Lands, AJ Dupre will present a program on the State of NH Chestnut Restoration Program. The American Chestnut Foundation is looking for site locations for seed and breeding orchards for American Chestnuts. We will hear about site requirements for successful orchards, and how you can be involved with this important research. Additionally, AJ will include a brief presentation on the biology and history of the American Chestnut tree, the impacts of the chestnut blight fungus, and how the American Chestnut Foundation is using breeding programs to grow-blight resistant chestnut trees. Two of these private land orchards are here in Peterborough, NH.

Big Annuals for Big Color

By Laura Trowbridge

April 13, 2020 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Laura Trowbridge lives and gardens in Peterborough. You may have visited her gardens when they are open for the Garden Conservancy Monadnock Open Gardens Days. Laura is a well-respected designer who has designed gardens all over the Monadnock Region. She will speak on how to include large bold annuals to make your garden come alive to complement and keep your gardens colorful when the perennials flourish has faded. Laura's gardens have been featured in several local and National magazines.

The World in Your Garden

By Roger Swain

May 11, 2020 at The Monadnock Center, Bass Hall, 19 Grove St., Peterborough, NH 03458

Roger Swain is a well-known horticulturalist who lives and gardens in the Monadnock Region. He will talk about the plant families and their geographic origins as well as the people who introduced the plants to our country that we now love.

Infusing Your Life with Herbs

By Karen O'Brien

September 14, 2020 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Using fresh herbs grown in your garden or windowsill, our own Karen O'Brien will teach us how to take simple culinary staples, such as butters, sugars, vinegars, and transform ordinary foods into something delicious with the addition of fresh herbs. Herbs can be used in natural cleaning products, as well as body and beauty products, reducing the need for toxic chemicals and harsh ingredients. We will sample an array of herb-kissed products that will enliven your life throughout the year; and set a course for your own herbal adventure by making two herbal products for you to use at home.

Encouraging Wildlife Diversity in Designed Landscapes

By Matt Tarr

October 5, 2020 at Harris Center for Conservation Education, 83 Kings Hwy, Hancock, NH 03449

"An abundance of wildlife" is one of the best indicators of an ecologically well-designed landscape. By understanding how pollinators, birds, mammals, reptiles and amphibians select their habitats during each season of the year, we can design landscapes that effectively attract and support a diversity of wildlife. This presentation will provide practical methods for designing ecologically complete landscapes that invite human interaction and transcend simple aesthetics through their added interest and functioning interconnected elements.

Holiday Floral Demonstration

By Mary Potter O'Neill

November 9, 2020 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Mary Potter O'Neill, creator of Billies + Tilli, is a talented floral designer from the Monadnock Region. You can see Mary's work at Bower Bird and other local stores. Billies and Tilli specializes in flowers for weddings and special events, using local and sustainably grown flowers. Mary will demonstrate floral designs for the holidays pairing her love for nature with her knowledge and interest in vintage goods and contemporary design. Mary will include 3 floral arrangements to be raffled.

Design and Horticulture Workshop

By PGC

March 8, 2021 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Led by our own members, learn how to force, Quince, Forsythia, Pussy Willow, Catkins, Witchazel, Magnolia, and other branches from your gardens. Bring a vase and any branches you may have. Together we will prep branches create designs that will last in your homes. The Club will provide additional branches and flowers.

Hydrangeas 360: The Straight Talk on Hydrangeas for New England

By Jenn Kettell

April 12, 2021 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

With endless gorgeous hydrangea cultivars flooding our nurseries, it can be challenging to choose just one (or a few!). Don't let the size and color of magnificent blooms lead you to plant hydrangeas that will not thrive in your garden. Join Jenn Kettell for a lively discussion on the what the *species* are behind the hot trade names; how to match your site conditions to those species; why knowing that you have a "lacecap" or "mophead" type is not enough; how to prune to maximize flowering which are drought-tolerant or benefit pollinators, and other essential growing tips.

Raised Bed Vegetable Gardens

By Susan Hammond

May 10, 2021 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Raised beds are an easy and productive way to grow vegetables (and some fruits, too!). After a quick review of the basics of growing vegetables at home, we'll explore the details of raised bed gardening, including design, materials, and construction methods. While this talk focuses on vegetables, the raised bed techniques we discuss can be adapted to many other kinds of gardens as well.

Designing Shading Retreats

By Joan Butler and Jana Milbocker

September 13, 2021 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

In this richly illustrated program, Joan and Jana explore a variety of intriguing gardens that will inspire you to create your own shady retreats! They will describe design techniques and strategies to light up shady corners; highlight unusual plants that thrive in low-light conditions; and illustrate the creative use of art objects, seating and water features to enliven your space.

Encouraging Wildlife Diversity in Designed Landscapes

By Matt Tarr

October 18, 2021 at Harris Center for Conservation Education, 83 Kings Hwy, Hancock, NH 03449

“An abundance of wildlife” is one of the best indicators of an ecologically well-designed landscape. By understanding how pollinators, birds, mammals, reptiles and amphibians select their habitats during each season of the year, we can design landscapes that effectively attract and support a diversity of wildlife. This presentation will provide practical methods for designing ecologically complete landscapes that invite human interaction and transcend simple aesthetics through their added interest and functioning interconnected elements.

Flower: Fresh and Fun!

By Kim Cutler

November 8, 2021 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Kim is a graphic designer, ceramist and multiple-award-winning floral arranger. For the past 17 years (and counting!) she has co-chaired and exhibited at Flora in Winter at the Worcester Art Museum in Massachusetts, where she shows floral interpretations of works of art. Today she will design several “fresh and fun” pieces for PGC, which will all be raffled off at the end of the meeting!

PGC Programs 2021 – 2022 (continued)

Poison Ivy Removal

By Helaine Hughes

March 14, 2022 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

During this presentation Helaine will show us how to identify poison ivy in all four seasons, and how to distinguish it from other plants. She will discuss what creates the poison ivy rash and tell us how to clean our clothing, tools and skin in order to prevent it.

Fragrance in the Garden

By Betty Sanders

April 11, 2022 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Presented with flowers, most of us immediately inhale deeply. But not all flowers are fragrant! Betty will explore a wide variety of annuals, perennials, trees and shrubs that deliver on the promise of wonderful scents as well as beauty; and also learn why a “rose is not *always* a rose to the nose”.

Monarch Butterflies as Pollinators

By Donna Miller

May 9, 2022 at Shieling Forest Learning Center, 395 Old Street Rd, Peterborough, NH

Where have all the monarchs gone? The monarch butterfly has long been a common sight during late summer in New Hampshire. But some years you see them, and some years you don't. Donna has been assisting Monarch Watch, tagging and releasing monarchs each fall. She'll share slides of her Monarch Way Station and Monarch Maternity Ward, two gardens designed specifically to attract monarchs. We'll discuss what's behind their fluctuating population and how we can help improve their numbers.
